# Energy Economics

**Index to Volume 13**
January, April, July, October 1991

## Articles – titles

### Electricity supply and demand, pricing

Alternative scale measures and the behaviour of average costs in steam electric generation, *D. A. Fuller*, 13.1, 61–68
Consumption preferences structure of Greek households, *V. Assimakopoulos and H. G. Domenikos*, 13.3, 163–167
Economic interpretation of the EFOM model, *Poul Erik Grohnheit*, 13.2, 143–152
On the economics of PURPA auctions, *Friedel Bolle*, 13.2, 74–80
Economies of scale and factor substitution in electricity supply industry: a case study of South Australia, *Ali Ahmed Rushdi*, 13.3, 219–229
Election returns as a signal of changing regulatory climate, *M. E. Butler and E. M. McNertney*, 13.1, 48–54
Generators and the cost of electricity outages, *Michael Beenstock*, 13.4, 283–289
The influence of an increase in electricity tariffs on the viability of heat pumps against direct heating for large consumers of hot water in South Africa, *Josua P. Meyer and Gideon P. Greyvenstein*, 13.4, 238–244
The long-run marginal cost of electricity in rural regions: a methodology for calculating the real cost of electricity, *Peter G. Soldatos*, 13.3, 187–198
Productive efficiency in a regulated industry: the area electricity boards of England and Wales, *Thomas G. Weyman-Jones*, 13.2, 116–122
Regulator selection and endogenous systematic risk, *Michael Devaney*, 13.2, 86–92
Residential demand for electricity: the case of Greece, *G. S. Donatos and G. J. Mergos*, 13.1, 41–47

### Energy demand and energy efficiency

Analysing gasoline demand elasticities: a survey, *Carol Dahl and Thomas Sterner*, 13.3, 203–210
Deforestation from the overexploitation of wood resources as a cooking fuel: a comment on the optimal control model of Hassan and Hertzler, *Ralf Wiedenmann*, 13.2, 81–85
The demand for energy: cross-country evidence using the Florida model, *J. L. Seale Jr. W. E. Walker and In-Moo Kim*, 13.1, 33–40
Demand for energy in rural and urban centres of Ethiopia: an econometric analysis, *Asmerom Kidane*, 13.2, 130–134
On the economics of PURPA auctions, *Friedel Bolle*, 13.2, 74–80
An energy consumption forecast for the Soviet residential and commercial sector, *O. A. Nekrasova*, 13.1, 10–18
The influence of modal choice on energy conservation strategies in transport: application of a logit model, *Gwo-Hshiung Tzeng, June-Jye Chen and Chang-Jen Lan*, 13.4, 290–299
Manufacturing energy use in eight OECD countries: decomposing the impacts of changes in output, industry structure and energy intensity, *Richard B. Howarth, Lee Schipper, Peter A. Duerr and Steinar Strom*, 13.2, 135–142
Manufacturing sector carbon dioxide emissions in nine OECD countries, 1973–87: a Divisia index composition to changes in fuel mix, emission coefficients, industry structure, energy intensities and international structure, *Asbjorn Torvanger*, 13.3, 168–186
Marginal cost pricing revisited, *Gunter Schramm*, 13.4, 245–249
Productive efficiency in a regulated industry: the area electricity boards of England and Wales, *Thomas G. Weyman-Jones*, 13.2, 116–122
Rational expectations, risk and efficiency in energy futures markets, *Apostolos Serletis*, 13.2, 111–115
A statistical analysis of energy coefficients, *B. W. Ang*, 13.2, 93–110

### Energy–economy interactions

Competition between energy and agricultural production: a discussion of a country's best strategies, *Gilberto De Martino Jannuzzi*, 13.3, 199–202
Deforestation from the overexploitation of wood resources as a cooking fuel: a comment on the optimal control model of Hassan and Hertzler, *Ralf Wiedenmann*, 13.2, 81–85
Economic interpretation of the EFOM model, *Poul Erik Grohnheit*, 13.2, 143–152
The employment impact of oil activity in North Norway: an application of deterministic simulation technique, *K. Heen*, 13.1, 19–25
Endogenous taxes in a vertically integrated, natural resource extracting firm, *M. J. Mueller*, 13.1, 55–60
Generators and the cost of electricity outages, *Michael Beenstock*, 13.4, 283–289
The impact of a broad based energy tax on the US economy, *Roy Boyd and Noel D. Uri*, 13.4, 258–273
Manufacturing energy use in eight OECD countries: decomposing the impacts of changes in output, industry structure and energy intensity, *Richard B. Howarth, Lee Schipper, Peter A. Duerr and Steinar Strom*, 13.2, 135–142
Rational expectations, risk and efficiency in energy futures markets, *Apostolos Serletis*, 13.2, 111–115
Resource extraction, international trade and production with the resource, *A. Aydin Cecen*, 13.4, 254–257
A statistical analysis of energy coefficients, *B. W. Ang*, 13.2, 93–110

### Energy modelling

Competition between energy and agricultural production: a discussion of a country's best strategies, *Gilberto De Martino Jannuzzi*, 13.3, 199–202
Consumption preferences structure of Greek households, *V. Assimakopoulos and H. G. Domenikos*, 13.3, 163–167
Economic interpretation of the EFOM model, *Poul Erik Grohnheit*, 13.2, 143–152
The employment impact of oil activity in North Norway: an application of deterministic simulation technique, *K. Heen*, 13.1, 19–25
The impact of a broad based energy tax on the US economy, *Roy Boyd and Noel D. Uri*, 13.4, 258–273
The influence of modal choice on energy conservation strategies in transport; application of a logit model, *Gwo-Hshiung Tzeng, June-Jye Chen and Chang-Jen Lan*, 13.4, 290–299
Short- and long-term equilibria: relationships between first and third generation dynamic factor models, *G. C. Watkins*, 13.1, 2–9

### Energy pricing

A comparison of petroleum futures versus spot prices as predictions of prices in the future, *Anthony E. Bopp and George M. Lady*, 13.4, 274–282
Demand for energy in rural and urban centres of Ethiopia: an econometric analysis, *Asmerom Kidane*, 13.2, 130–134
The impact of a broad based energy tax on the US economy, *Roy Boyd and Noel D. Uri*, 13.4, 258–273
The influence of an increase in electricity tariffs on the viability of heat pumps against direct heating for large consumers of hot water in South Africa, *Josua P. Meyer and Gideon P. Greyvenstein*, 13.4, 238–244

Marginal cost pricing revisited, *Gunter Schramm*, 13.4, 245–249
Marketing dynamism: an econometric study of the oil pricing policies of selected OPEC members, *Bright Erakpoweri Okogu*, 13.3, 154–162
A note on first-best marginal cost measures in public enterprise, *Dennis L. Weisman*, 13.4, 250–253
A note on OPEC market power and oil prices, *David L. Greene*, 13.2, 123–129
Rockets and feathers: the asymmetric speed of adjustment of UK retail gasoline prices to cost changes, *Robert W. Bacon*, 13.3, 211–218
USA oil/gas production cost: recent changes, *M. A. Adelman*, 13.4
A weak form evaluation of the efficiency of the Rotterdam and Italian oil spot markets, *E. Panas*, 13.1, 26–32

**Oil and gas supply and demand**

The employment impact of oil activity in North Norway: an application of deterministic simulation technique, *K. Heen*, 13.1, 19–25
Marketing dynamism: an econometric study of the oil pricing policies of selected OPEC members, *Bright Erakpoweri Okogu*, 13.3, 154–162
A note on OPEC market power and oil prices, *David L. Greene*, 13.2, 123–129
Rockets and feathers: the asymmetric speed of adjustment of UK retail gasoline prices to cost changes, *Robert W. Bacon*, 13.3, 211–218
USA oil/gas production cost: recent changes, *M. A. Adelman*, 13.4, 235–237
A weak form evaluation of the efficiency of the Rotterdam and Italian oil spot markets, *E. Panas*, 13.1, 26–32

**Public utility regulatory economics**

Election returns as a signal of changing regulatory climate, *M. E. Butler and E. M. McNertney*, 13.1, 48–54
A note on first-best marginal cost measures in public enterprise, *Dennis L. Weisman*, 13.4, 250–253
Productive efficiency in a regulated industry: the area electricity boards of England and Wales, *Thomas G. Weyman-Jones*, 13.2, 116–122
Regulator selection and endogenous systematic risk, *Michael Devaney*, 13.2, 86–92

## Articles – authors

*Adelman, M. A.*, USA oil/gas production cost: recent changes, 13.4, 235–237
*Ang, B. W.*, A statistical analysis of energy coefficients, 13.2, 93–110
*Assimakopoulos, V. and Domenikos, H. G.*, Consumption preferences structure of Greek households, 13.3, 163–167
*Bacon, Robert W.*, Rockets and feathers: the asymmetric speed of adjustment of UK retail gasoline prices to cost changes, 13.3, 211–218
*Been stock, Michael*, Generators and the cost of electricity outages, 13.4, 285–291
*Bolle, Friedel*, On the economics of PURPA auctions, 13.2, 74–80
*Bopp, Anthony E. and Uri, Noel D.* A comparison of petroleum futures versus spot prices as predictors of prices in the future, 13.4, 274–282
*Boyd, Roy and Uri, Noel D.*, The impact of a broad based energy tax on the US economy, 13.4, 258–273
*Butler, M. E. and McNertney, E. M.*, Election returns as a signal of changing regulatory climate, 13.1, 48–54
*Cecen, A. Aydin*, Resource extraction, international trade and production with the resource, 13.4, 254–257

## Book reviews

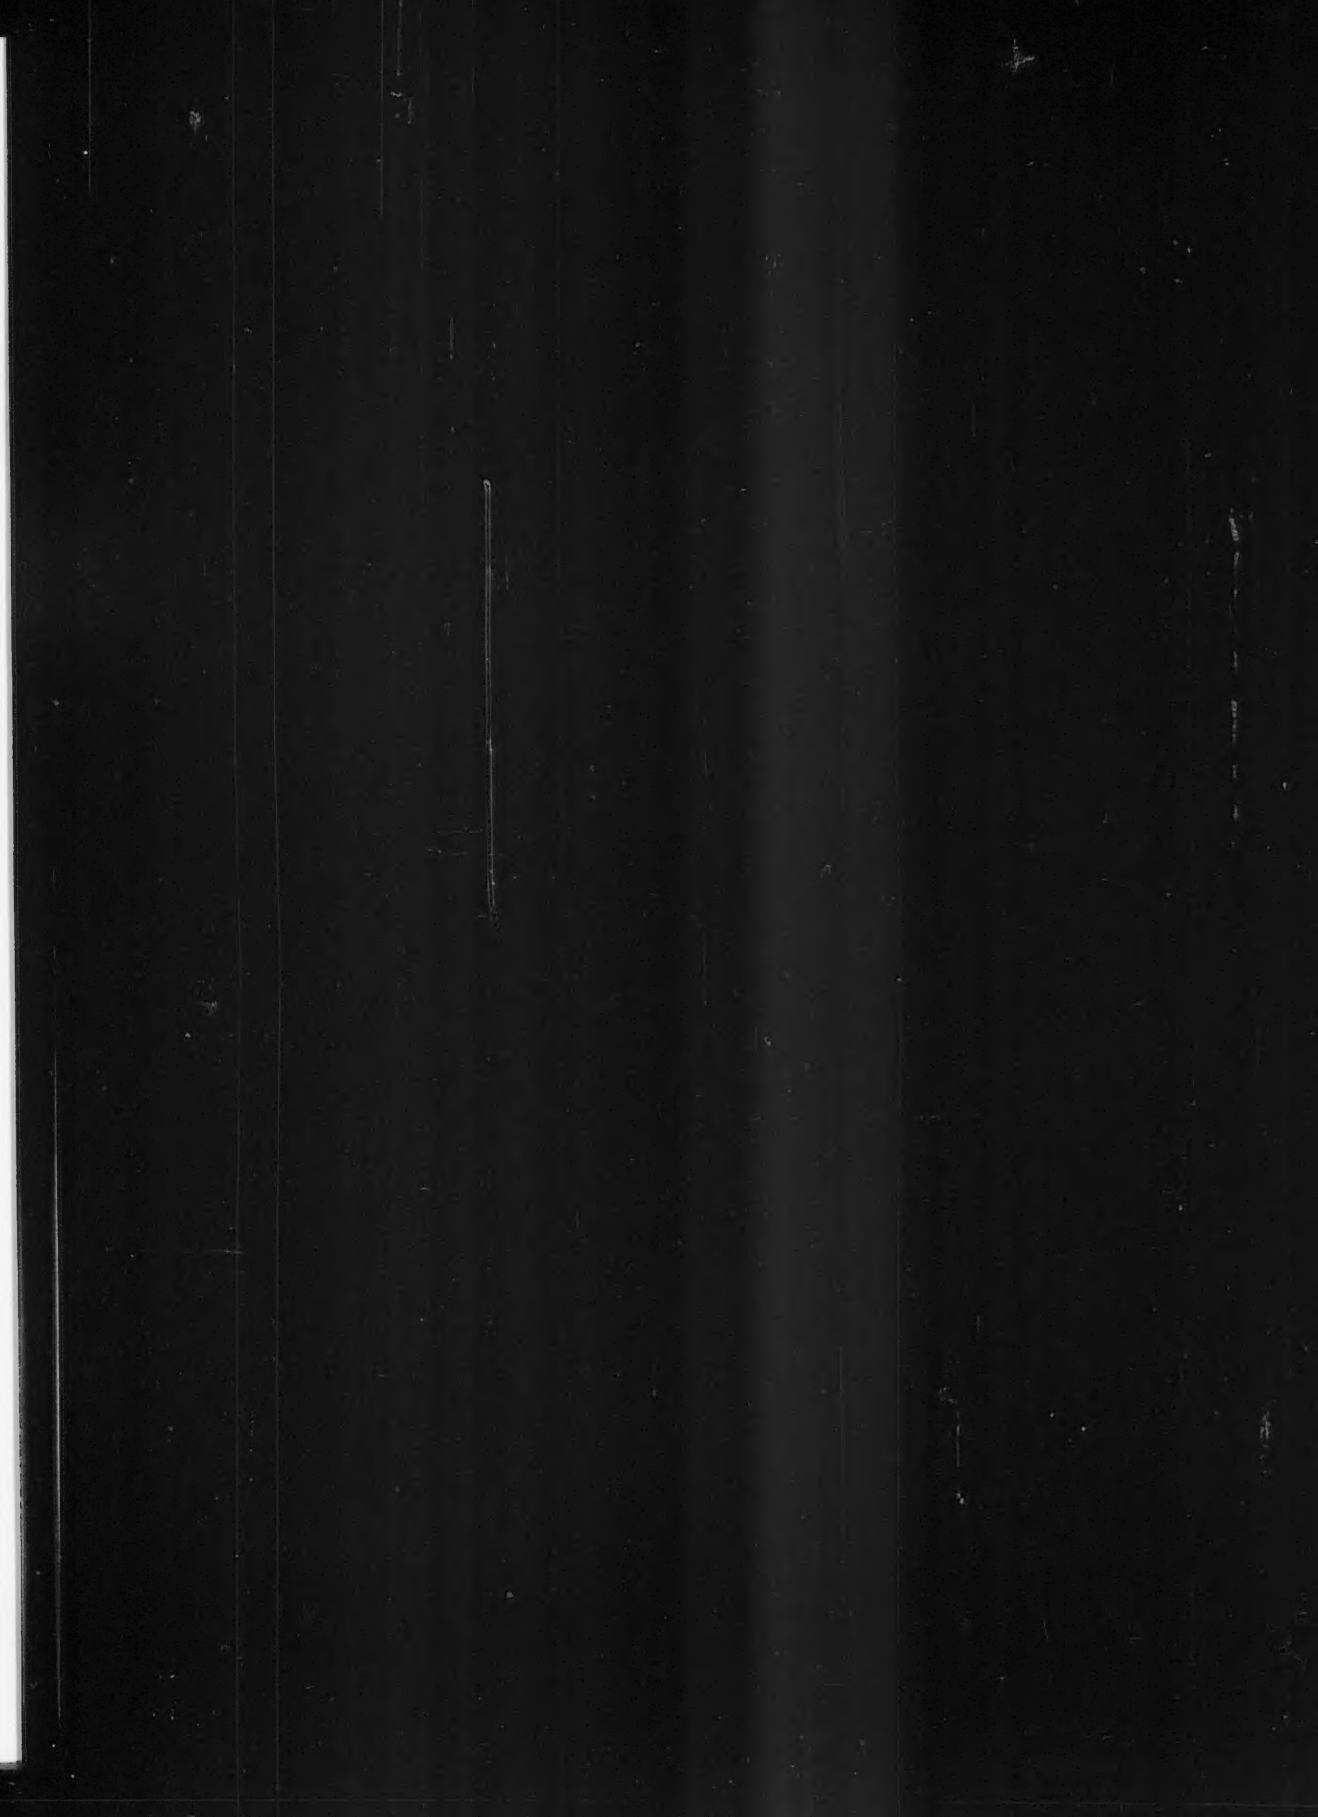
*Energy Analysis and Policy* by Mohan Munasinghe (reviewed by Sima Motamen), 13.4, 300
*Electric Power Economics* by Mohan Munasinghe (reviewed by Sima Motamen), 13.4, 301

## Letter to the editor

Electricity and economic growth in Jamaica – a response, *L. G. Brookes*, 13.1, 69

## Calendar

13.3, 230; 13.4, 303–304

## Publications


13.3, 231; 13.4, 304–305
